AUDITORS' REPORT

To the Unitholders of Front Street Mining Opportunities Fund

We have audited the statements of investment portfolio and net assets of Front Street Mining Opportunities Fund "The Fund" as at December 31, 2006 and the statements of operations and changes in net assets for the year then ended. These financial statements are the responsibility of the manager of the Fund. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the manager of The Fund, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2006 and the results of its operations and changes in its net assets for the year then ended in accordance with Canadian generally accepted accounting principles.

The image shows a handwritten signature in black ink that reads "Segal LLP". The signature is written in a cursive, flowing style.

FRONT STREET MINING OPPORTUNITIES FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2006

1. ESTABLISHMENT OF TRUST

Front Street Mining Opportunities (the “Fund”) is an investment trust created under the laws of the Province of Ontario pursuant to a trust agreement dated January 3, 2005 (the “Trust Agreement”). HSBC Trust Company (Canada), a trust company incorporated under the laws of Canada, which is authorized under the laws of the Province of Ontario to carry on the business of a trust company, is the trustee of the Fund (the “Trustee”). Front Street Capital 2004 (the “Manager”) is responsible for providing or arranging for provision of administrative services required by the Fund.

The Fund’s investment objective is to provide holders of Units (“Unitholders”) with long term growth through capital appreciation by investing primarily in a diversified portfolio (the “portfolio”) of common shares and common share equivalents of Canadian companies engaged in natural resource industries such as mining and minerals and precious metals. The Fund will also invest in speculative securities of junior issuers and early-stage companies in these sectors. The Fund may invest in companies and machinery and equipment manufacturers, and may invest up to 10% of its assets directly in commodities such as gold, silver, platinum and palladium in the form of bullion, coins, receipts, certificates or permitted gold certificates.

The Fund is not a member of the Mutual Fund Dealers Association. As a result, the protections provided to investors in mutual funds, that are members subject to regulations of the association, are not available to investors in the Units.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements were prepared in accordance with Canadian generally accepted accounting principles. The following is a summary of the significant accounting policies followed by the Fund:

a) Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires the Manager to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

b) Valuation of investments

- i) Investments listed on an exchange are valued at the closing sale price reported by the principal securities exchange on which the issue is traded or, lacking any sales, at the closing bid prices on the financial statement date. The difference between this amount and cost is shown as unrealized gain (loss) on investments. Securities for which reliable quotations are not readily available are valued at current value, as determined in good faith and pursuant to procedures established by the Manager.

FRONT STREET MINING OPPORTUNITIES FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2006

2. SIGNIFICANT ACCOUNTING POLICIES (Continued...)

b) Valuation of investments (Continued...)

- ii) Any investment for which a market quotation is not readily available ("private companies") shall be valued at cost, in the absence of any subsequent financing, or shall be valued at its fair value as determined by the Fund Manager.
- iii) Investments which are restricted as to transferability are valued at the fair value of the unrestricted investment as provided in paragraphs (i) and (ii) above less a discount of 2% per month up to four months.

The process of valuing investments for which no published market exists is inevitably based on inherent uncertainties and the resulting values may differ from values that would have been used had a ready market existed for investments.

- iv) Securities which are sold short are recorded at the last trade price or closing offer price reported by the principal securities exchange on which the issue is traded. The Fund may make short sales whereby a security that it does not own is sold in anticipation of a decline in the market value of the security. To enter a short sale, the Fund may need to borrow the security for delivery to the buyer.

On each day the short position is open, the liability for the obligation to replace the borrowed security is marked-to-market and an unrealized gain or loss equal to the difference between the price at which the security was sold and the cost of replacing the borrowed security is recorded. While the transaction is open, the Fund will also incur a liability for any paid dividends or interest which are due to the lender of the security.

c) Cash and cash equivalents

Cash and cash equivalents consist of cash balances with banks and highly liquid short-term investments with original terms to maturity of less than three months.

d) Investment transactions and income recognition

Investment transactions are accounted for on the trade date. Gains or losses arising from the sale of investments are determined using the average cost basis. Income from investments is recorded on the accrual basis. Interest income is recorded as earned and dividend income is recorded on the ex-dividend date. Stock dividends are recorded in income based on the market value of the security.

e) Income taxes

The Fund presently qualifies as a "unit trust" under the Income Tax Act (Canada) and, accordingly, is not taxed on that portion of its taxable income that is paid or allocated to unitholders. The Fund allocates to its unitholders sufficient net income and net realized capital gains so that it will not be subject to income taxes except for minimum taxes that may be exigible on the untaxed portion of realized capital gains. Foreign income received is subject to foreign withholding taxes

FRONT STREET MINING OPPORTUNITIES FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2006

2. SIGNIFICANT ACCOUNTING POLICIES (Continued...)

f) Foreign currency translation

Income, expenses and investment transactions in foreign currencies are translated into Canadian dollars at the rate of exchange prevailing on the dates of such transactions. Assets and liabilities in foreign currencies are translated into Canadian dollars at the closing exchange rates on each valuation day.

g) Net asset value per unit

The net asset value per unit is calculated by dividing the net asset value of units by the total number of units outstanding at the end of the year.

h) Organization costs

Organization costs related to the initial issue of units, such as the agent's fees and promotion costs have been charged against unitholders' equity, since they are considered to be capital transactions.

3. UNITS ISSUED AND OUTSTANDING

The Fund is authorized to issue an unlimited number of Units of beneficial interest, each of which represents an equal, undivided interest in the net assets of the Fund. Each Unit entitles the holder to the same rights and obligations as a holder of any other Unit and no Unitholder is entitled to any privilege, priority or preference in relation to any other Unitholders. Each Unitholder is entitled to one vote for each Unit held and is entitled to participate equally with respect to any and all distributions made by the Fund, including distributions of net income and net realized capital gains.

Subject to the Fund's right to suspend redemptions, units held by a Unitholder for a minimum period of six months may be surrendered not less than 30 days prior to the last business day of each month for redemption. Units so surrendered for redemption by the Unitholder to the Manager will be redeemed for a price equal to the Net Asset Value per Unit as at the close of business on the redemption date.

The following unit transactions took place during the year:

	2006	2005
Balance, beginning of year	\$ 2,820,278	\$ -
Issued	691,102	2,906,310
Redeemed	<u>(431,683)</u>	<u>(86,032)</u>
Balance, end of year	<u>\$ 3,079,697</u>	<u>\$ 2,820,278</u>

FRONT STREET MINING OPPORTUNITIES FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2006

4. INVESTMENT MANAGEMENT AND OTHER FEES

Management fees

A management fee of 2.0% per annum, based on the weekly Net Asset Value calculations, is payable within ten business days after the end of each month. Management fees are payable to the Manager.

Performance fees

A performance bonus is paid to the Manager based on the Fund's annual performance. The performance bonus is calculated and accrued monthly as 20% of the Fund performance in excess of a minimum performance as specifically defined in the Fund's Trust Agreement.

5. EXPENSES

The Manager may pay out of the Trust Property all expenses relating to the operation of the Fund and the carrying on of its business. These expenses may include management fees, performance bonus, bookkeeping, legal, audit, trustee, registrar and transfer agency, custodial and safekeeping fees, taxes, brokerage commissions, advertising costs, interest, operating and administrative costs, Unitholder servicing costs, and costs of financial and other reports that are used in complying with the laws, regulations and policies regulating the issue or sale of Units.

6. RELATED PARTY TRANSACTIONS

Management fees of \$1,239,857 (2005 - \$511,100) were paid to the Manager during the year (see note 4). Performance fees of \$7,061,484 (2005 - \$3,746,245) were also paid to the Manager during the year (see note 4). The year end balance of \$7,061,484 (2005 - \$3,746,245) in performance fees payable is payable to the Manager.

627,886 (2005 - 625,000) of the units outstanding at year end having a cost of \$6,300,000 (2005 - \$6,250,000) are held directly by the partners of Front Street Capital 2004.

97,459 (2005 - 96,032) of the units outstanding at year end having a cost of \$1,107,700 (2005 - \$960,316) are held by relatives of the partners of Front Street Capital 2004.

The Fund may place a portion of its portfolio transactions with brokerage firms which are affiliates of Front Street Capital 2004 provided it determines that these affiliates' trade execution abilities and costs are comparable to those non-affiliated, qualified brokerage firms, on an execution-only basis. During the year ended December 31, 2006, Tuscarora Capital Inc. received \$19,957 (2005 - \$13,777) in commissions on portfolio transactions for the Fund.

These transactions are in the normal course of operations and are measured at the exchange amount of consideration established and agreed to by the related parties.

FRONT STREET MINING OPPORTUNITIES FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2006

7. **DISTRIBUTION POLICY**

The Fund intends to distribute all of its income for purposes of the Income Tax Act, including sufficient net realized capital gains (less applicable losses), on an annual basis, so that the Fund will not be liable for income tax. Distributions over the life of the Fund will be derived primarily from net realized capital gains and income from the Portfolio.

8. **BROKERAGE COMMISSIONS**

The total brokerage commissions paid by the Fund with respect to security transactions for the year ended December 31, 2006 was \$357,431 (2005 - \$298,608).

9. **INCOME TAX LOSS CARRYFORWARD**

The Fund has \$712,981 in non-capital losses available to be applied against taxable income of future years. These losses expire in 2015.

10. **INDEMNIFICATION OF THE MANAGER**

The Fund, pursuant to the Trust Agreement, will indemnify the Manager, its partners, directors, officers, employees and agents out of the Trust Property from all claims that may arise in connection with the exercise of its duties as Manager if they do not result from the Manager's willful misconduct, bad faith, gross negligence or reckless disregard of its duties, or breach of its obligations as manager under the Trust Agreement which have not been delegated to the Fund's investment advisor.

11. **FINANCIAL INSTRUMENTS**

The Fund's financial instruments consist of investments, at current value, accounts receivable related to units issued, accrued dividends receivable, bank indebtedness, accounts payable and accrued liabilities, performance fees payable, liability for units redeemed and obligations from portfolio asset sold short, at current value. It is management's opinion that the Fund is not exposed to significant interest, currency or credit risks arising from these financial instruments except as described below. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

The Fund's investment activities expose it to various types of risk that are associated with the financial instruments and markets in which it invests.

FRONT STREET MINING OPPORTUNITIES FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2006

11. FINANCIAL INSTRUMENTS (Continued...)

i) Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to the individual security of its issuer or factors affecting all securities in the market. All trading instruments are recognized at fair value and all changes in market conditions directly affect net assets from operations.

ii) Currency risk

The Fund may invest in financial instruments denominated in currencies other than its measurement currency. Consequently, the Fund is exposed to risks that the exchange rate of its currency relative to other currencies may change in a manner that has an adverse effect on the value of the portion of the Fund's assets or liabilities denominated in currencies other than Canadian dollars.

iii) Interest rate risk

The Fund is exposed to interest rate risk related to short-term deposits and borrowings as well as investments in government and corporate debt instruments. Consequently, the cash flows related to interest income and expense and the valuation of debt instruments could vary significantly from current value.

12. CREDIT RISK MANAGEMENT

The Fund is exposed to credit risk arising from its transactions with its counterparties and brokers, related to securities purchases and sales. Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

13. EXEMPTION FROM REGULATORY FILING REQUIREMENTS

National Instrument 81-106 Investment Fund Continuous Disclosure allows for Investment Funds categorized as non-reporting issuers to take advantage of an exemption to file annual and interim financial statements with the relevant regulatory authority as per Section 2.11 of the Ontario Securities Act. The Fund, as a non-reporting issuer, is relying on this exemption not to file its financial statements.
