

LOGiQ Asset Management Inc. Grows Assets to \$5.2 Billion with Institutional Transaction

LOGiQ Builds on its Vision to Build a Diversified Asset Management Firm

TORONTO, ON: (Marketwired - December 22, 2016) - LOGiQ Asset Management Inc. (TSX: LGQ) ("LOGiQ") is pleased to announce that it has entered into an agreement to purchase certain Global Advisory agreements from Integra Capital Limited to form the foundation for its new Institutional Advisory Group. This agreement builds on LOGiQ's vision to be a fully-integrated and diversified investment management firm with complementary businesses in all facets of the investment management industry. As a result of this transaction, assets managed or advised by LOGiQ will grow to approximately \$5.2 billion. Integra Capital Limited will continue to operate and expand its Integra Pooled Fund, Custom Solutions and OCIO business.

Integra's Global Advisor platform has over \$2.7 billion in advised assets and provides pension fund, charity and endowment clients with access to leading institutional money managers from around the globe. The Global Advisor platform has relationships with over 30 third-party investment managers, which ensures that its clients have exposure to highly-skilled investment managers in every conceivable asset class and style, including the burgeoning market for alternative investment vehicles.

Steve Mantle, the former Head of Integra's Global Advisor platform and recognized industry veteran will lead the new LOGiQ Institutional Advisory Group and also participate in the leadership of the overall LOGiQ investment management team.

Joe Canavan expressed, "We identified Integra Global Advisors as an engine of growth, adding one billion dollars of assets in 2016 alone. Steve and his team bring excellence in investment analytics and portfolio manager selection. They have quality relationships in the institutional global investment management business and access to some of the top portfolio managers in the world—some of whom will fit well as we expand our retail product offering."

Graham Rennie, the President and CEO of Integra Capital Limited stated, "We are delighted that our Global Advisor team is joining LOGiQ, a dynamic and exciting new asset management firm headed up by Joe Canavan. This transaction will permit us to maintain our long term relationships with our Global advisor managers and enable us to focus on adding value to our Pooled Fund clients, our Custom Solutions clients and on our strategic alliance with Willis Towers Watson to provide Delegated Investment Solutions to Canadian institutional investors."

Steve Mantle added, "LOGiQ's approach to the market and its vision of sophisticated open architecture solutions was a perfect home for us to continue to grow our institutional platform and provide our leading global investment managers a way to potentially offer their expertise to the Canadian retail investor."

Key personnel from Integra Global Advisors have entered into employment agreements with LOGiQ to provide for a smooth transition and historical institutional knowledge. "Integra's Global Advisor relationships bring a unique and growing business model to the institutional market that will be well supported within LOGiQ," said Joe Canavan.
